Because of my camera and pictures,  
I will always remember my trip to the  
aquarium!

**For the Children**

I once went to the aquarium on a field trip.

It was sad at first but then I realized

But then came the point, where it was time to go.

*Children it's time to leave.*

But then came the point, where it was time to go.

*Children it's time to leave.*

It was Really FUN!

It was super delicious!  
Not to mention very,very messy!

The other students and I followed  
our teacher, and held each other's  
hands.

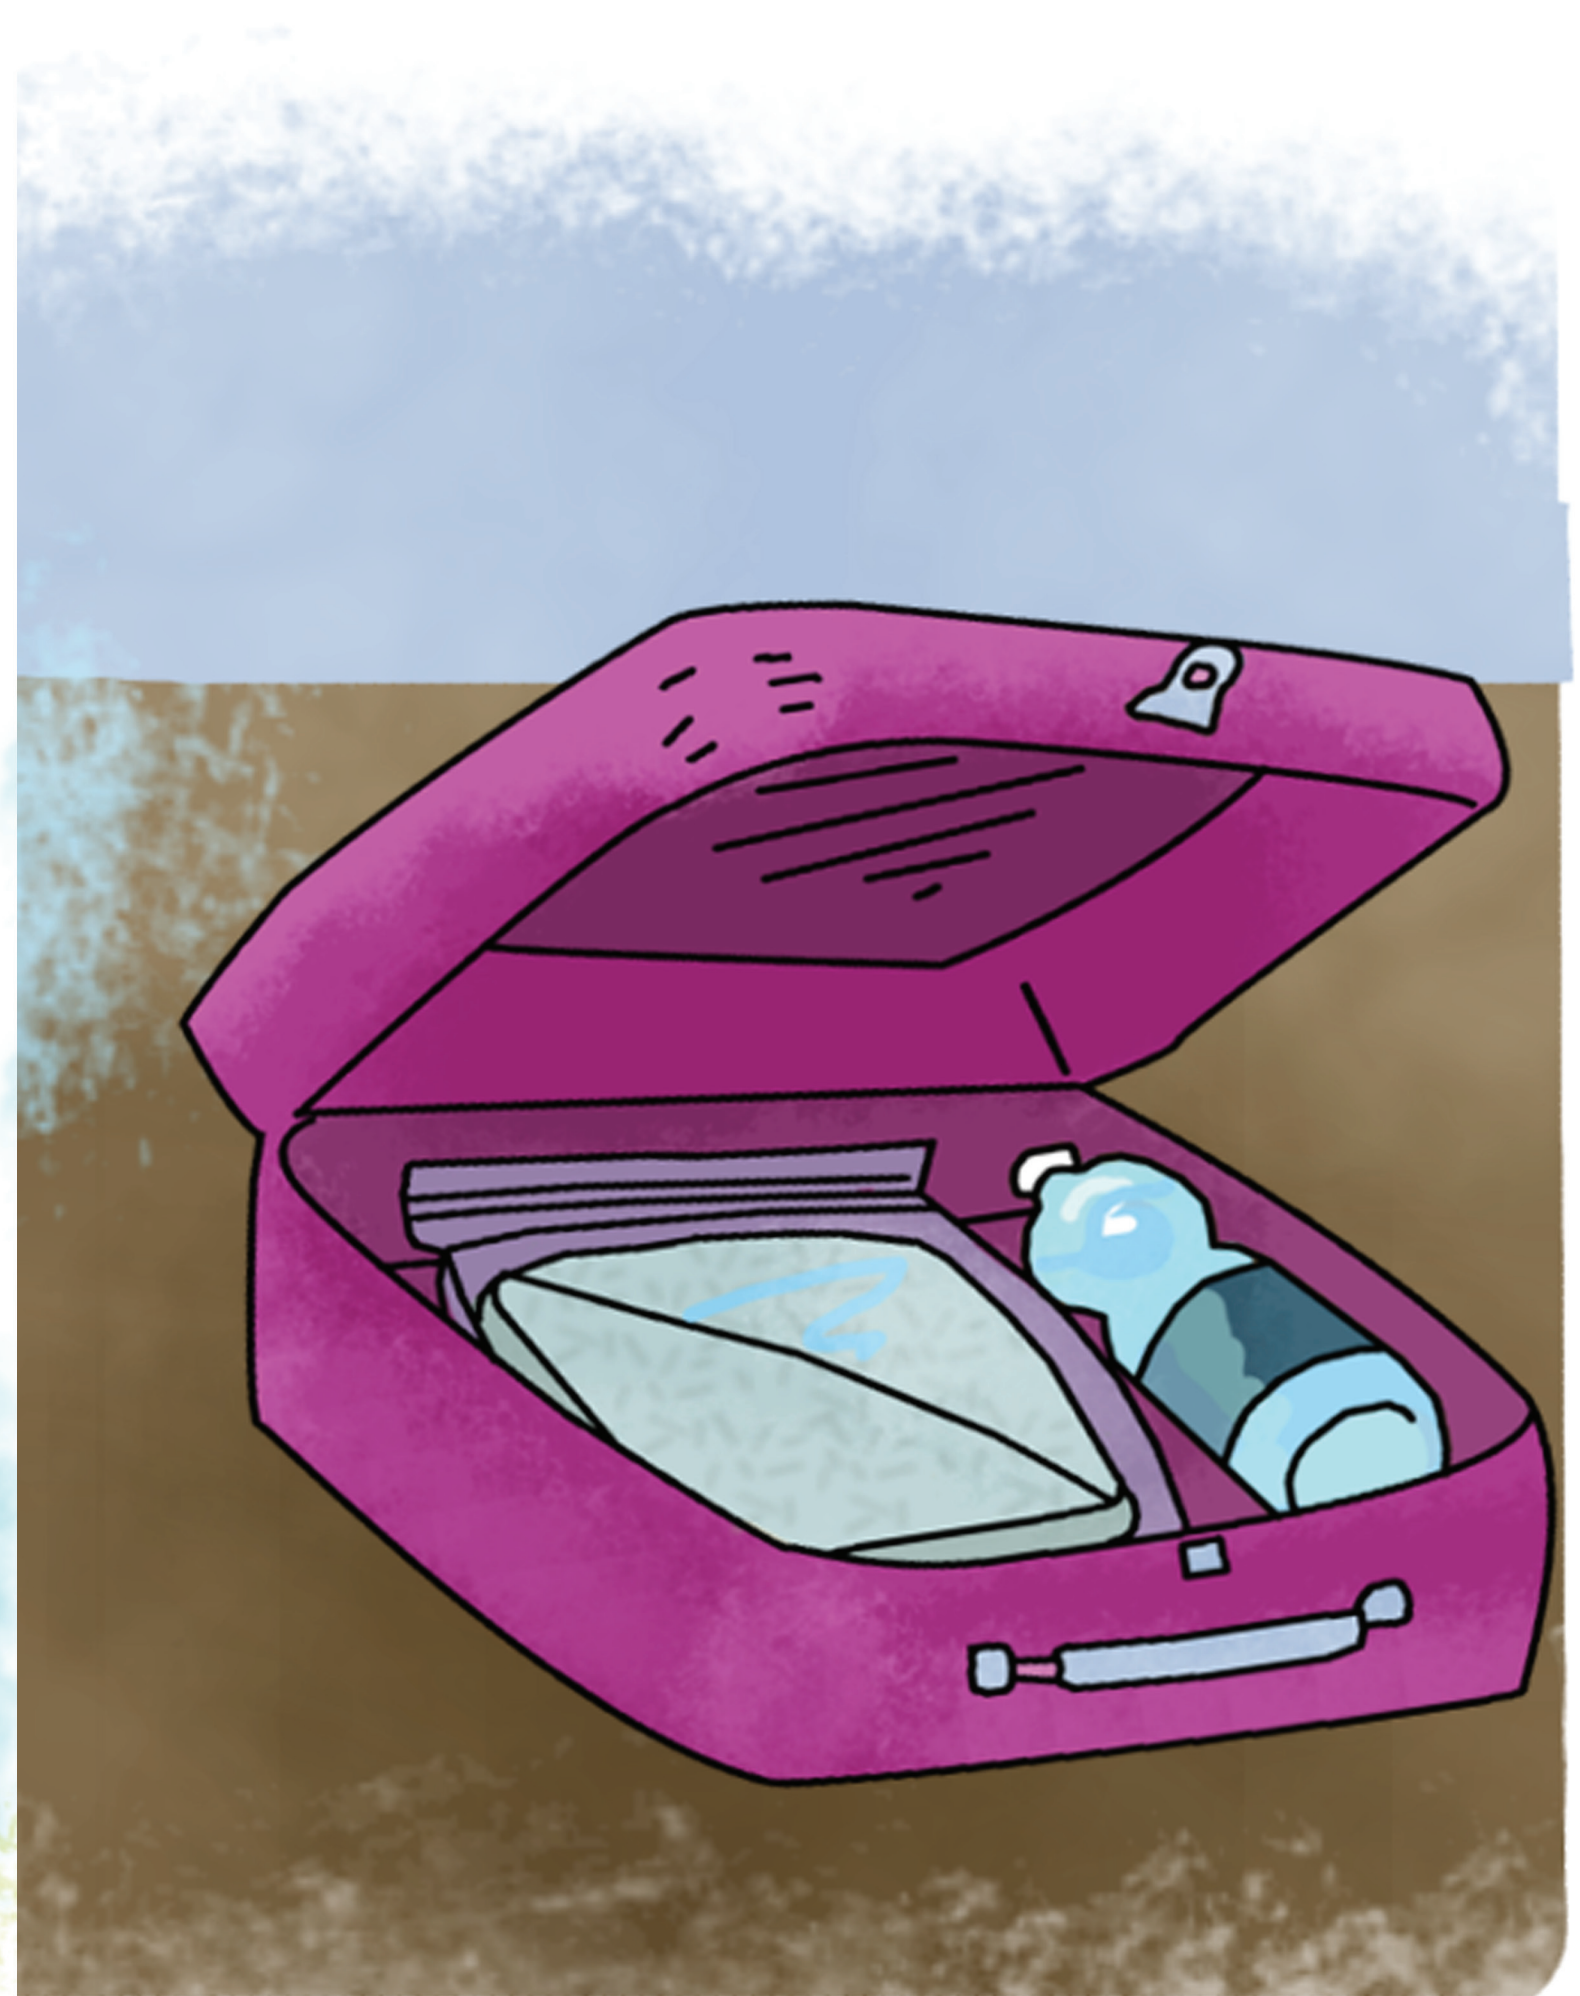

I saw crabs...

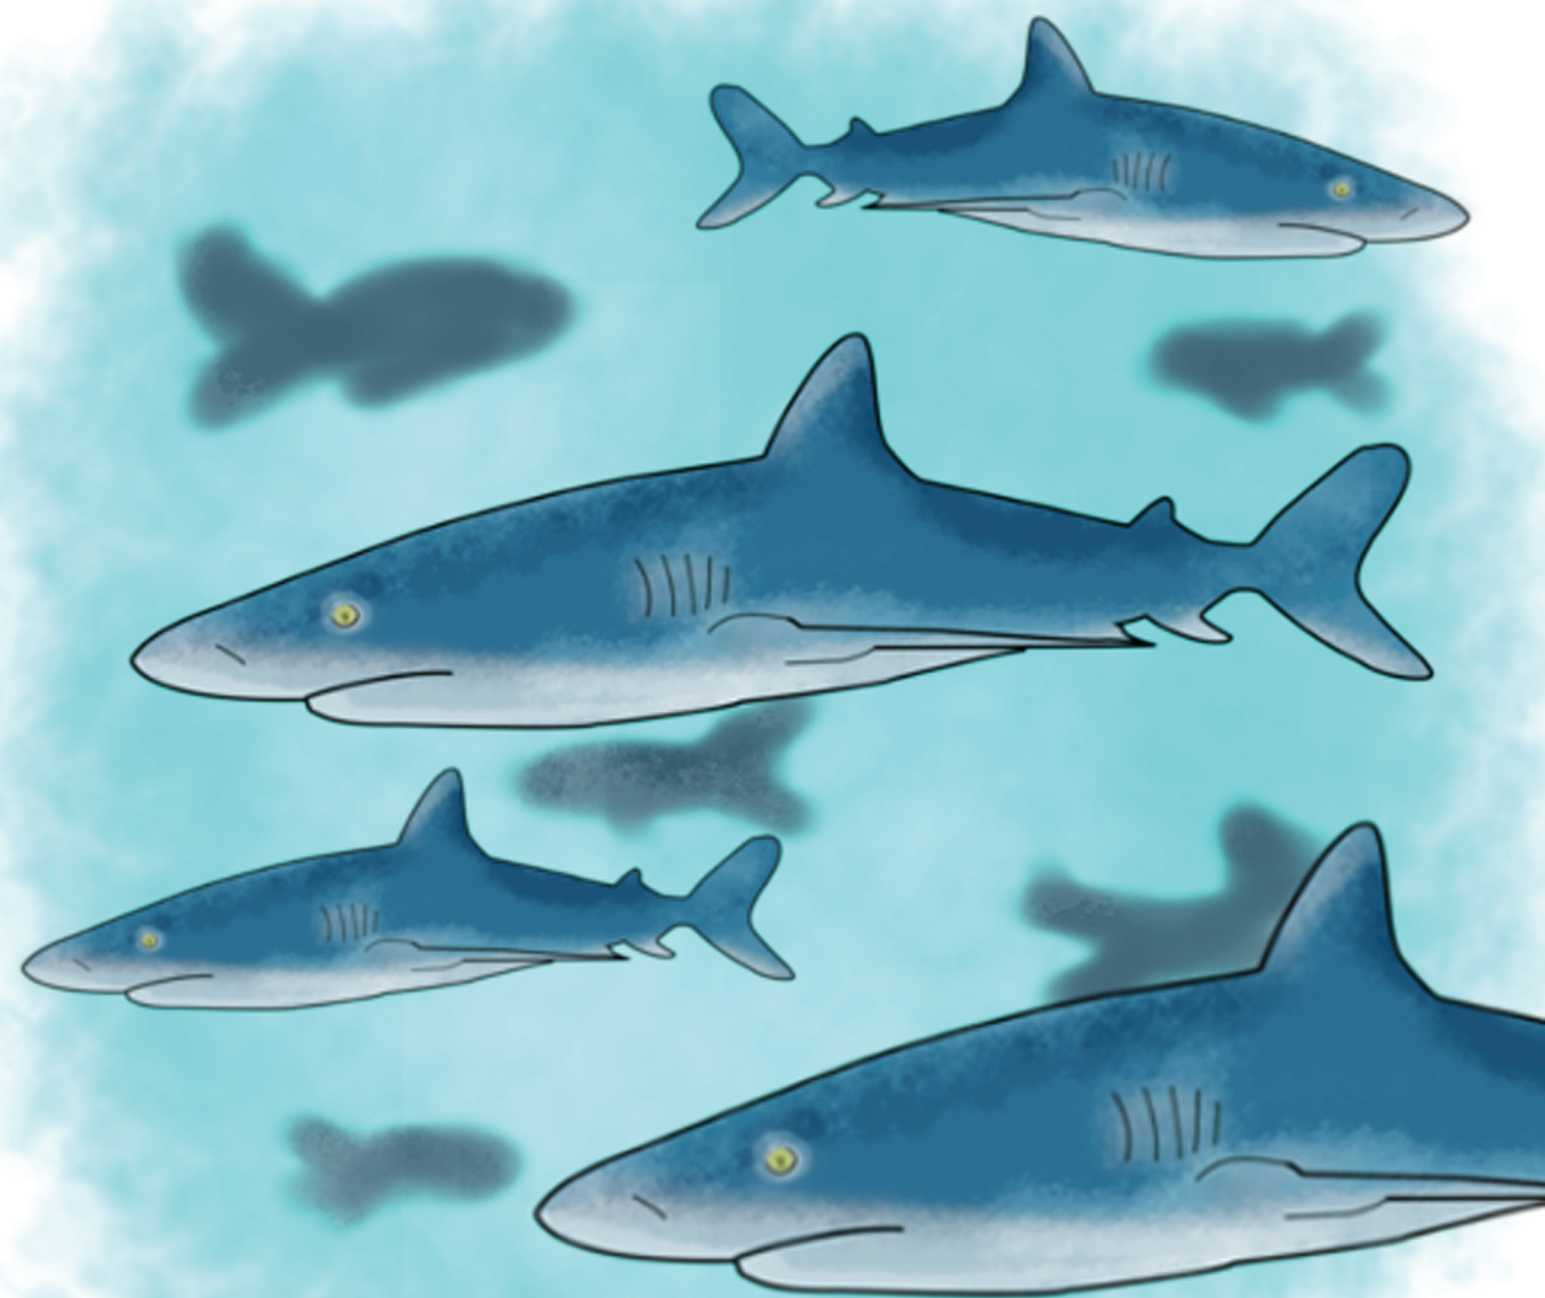

Turtles...

So the class and I followed our teacher to a bench with tables and we all began to eat. I had a peanut butter and jelly sandwich.

And great big sharks!

Then it was lunch time, and I think  
my tummy was the one that growled  
the loudest in my class.
